Exploration & Project Generators investing in Namibia and Botswana
ABOUT KALAHARI

- Experienced Management Team with experience in Southern Africa
- Corporate affiliation with Copperzone Resources active in Zambia

About Copperzone Resources
- Private company well funded, exploring in Zambia since 2009
- Circa 4,099 km² of license areas in Zambia
- Joint Ventures in past (3) Vale, (1) BHP Billiton
- Current Joint Ventures (6) Rio Tinto, (2) First Quantum Minerals

Kalahari aims to generate quality mineral projects in Namibia and Botswana and replicate the successes that Copperzone Resources has in Zambia. Kalahari first goal is to become a Project Generator in Namibia and Botswana creating attractive large investments for majors, and making a substantial financial commitment to both countries and their local communities.

Kalahari Directors & Management

Peter Walker – Chairman, Director
Mr Walker is a British geologist and mining entrepreneur with over 35 years experience in the metals and minerals industries. He graduated in Mining & Exploration Geology in 1973 from the Royal School of Mines in London. As founder and CEO of Scandinavian Minerals Ltd, he was responsible for the acquisition of the Kevitsa, Finland nickel-copper-PGE deposit in 2000. Scandinavian Minerals went public on the Toronto Stock Exchange in 2004 and over the next 8 years raised approximately 100 million Canadian Dollars in equity finance to develop Kevitsa. In 2008, Scandinavian Minerals was acquired in a friendly takeover by First Quantum Minerals for 281 million Canadian Dollars.

Christian de Saint Rome – CEO, Director
Mr. de Saint-Rome has over 25 years of experience in the areas of early-stage corporate management and financial services. Mr. de Saint –Rome is founder and CEO of Copperzone Resources Ltd, a project generator and exploration company in Zambia. Mr. de Saint-Rome was CFO then Corporate Development Advisor to Northern Shield Resources (NRN-TSXV); a Corporate Advisor, then Director of Scandinavian Minerals (SGL-TSX), which was sold to First Quantum (FM-TSX) in 2008 for 281 million CAD.

Mr. de Saint-Rome has worked with international companies such as; Deloitte Touche and RBC Dominion Securities. Mr. de Saint-Rome is the President of the Chambre de Commerce Finande-Canada and a board member of the Lakeshore Soccer Club, one of Quebec’s largest soccer clubs.

Mr. de Saint-Rome received his BA in Political Science from McGill University and has certificates from the Sorbonne and the University of Vienna.
Directors & Management

Paul Lemmon – COO, Director
Mr. Lemmon is a professional Geologist with experience in numerous jurisdictions worldwide. Most notably he has 20 years experience in several African countries. In addition to having held directorship positions at a number of public and private companies. Mr. Lemmon is the Chief Geologist and Director of Copperzone Resources Ltd, a successful project generator and exploration company in Zambia. Mr. Lemmon is Director and COO of Cold Rock Resources LTD (Sweden, Norway), and CEO of GroAfrica, an African agri-bio fuel business. Mr. Lemmon is a Professional Graduate of United Kingdom’s Institute of Materials, a Fellow of the Geological Society of London, and a Registered Professional Natural Scientist in South Africa. Mr. Lemmon’s experience in the mineral/mining energy sector dates back to 1987.

Dave Paxton – Director
Mr. Paxton was educated in Zimbabwe and then trained by Goldfields of South Africa as a mining engineer and mine manager of the production section. He completed a National Diploma in Metalliferous Mining in 1980 and acquired the Mine Managers Certificate in 1982. In 1983 he joined a South African stockbroker as a mining analyst for the South African mining industry. In 1988 he moved to the UK as a mining analyst in London. Dave has 35 years within the mining industry. He was recently CEO of Vatukoula Gold Mines plc, and AIM listed gold mining company - which was sold in 2013 to a Chinese mining company.
Advisors

Jeremy Martin
Mr Martin holds a degree in Mining Geology from the Camborne School of Mines, and an MSc. in mineral exploration from the University of Leicester. He has worked in South America, Central America and Europe, where he was responsible for grassroots regional metalliferous exploration programmes through to resources definition and mine development. Mr Martin has established a number of JV partnerships with major mining companies and has been involved in the formation of four AIM and TSX traded companies. He has served on a number of public company boards and is a member of the Society of Economic Geologists and the Institute of Mining Analysts. Mr. Martin is currently CEO of Horizonte Minerals Ltd listed on AIM market and TSX - V with major nickel project in Brazil and with Teck as a strategic partner.
Namibia and Botswana Advisors
